PROFESSIONAL INSTITUTIONAL CONTRACTING SERVICES

GLAZING

Taggart Brown & Associates, Inc. Prime Contractor, Glazing, Historical Restoration

By: Ted Gattino, Director, Business Development

Taggart Brown & Associates, Inc., was contracted to replace all of the storm window glazing over the stained glass windows at Sacred Heart Church. The process involved removing every Plexiglas storm window individually, re-finishing all of the wood trim around each opening, painting all of the trim and installing new Lexan storm window coverings. There are just over 100 windows total. In addition, Taggart Brown & Associates also removed and reinstalled newly powder coated security grates on the ground level.
