**Title:** Replace Glazing on Quarantine Screen Houses 5-8

**Location:** Building 580, Beltsville, MD 20705

**Start:** March 28, 2019

**Completion:** June 4, 2019

**Cost at Award:** \$294,618.75

**Cost at Completion:** \$294,618.75

**Prime Contractor:** Taggart Brown & Associates

**Subcontractor(s):** Maryland Plants & Supplies, Inc.

Taggart Brown & Associates was awarded the contract to remove and replace the acrylic roof panels on four quarantine screen houses at the USDA Animal and Plant Health Inspection Service - Plant Protection Quarantine - National Plant Germplasm Quarantine Center in Beltsville, Maryland. The facilities are used to isolate and test plant materials imported into the U.S. illegally for invasive pests and disease. The acrylic roof panels were made water and air tight to prevent any potential pathogens or insects from escaping. The project was successfully completed on time and on budget.
